

COMMITTEE'S VISIT RENEWS HOPES OF AN EARLY DEVELOPMENT MUSCLE SHOALS POWER PROJECT

JURISDICTION OVER NOTED PRISONER IS PUZZLING QUESTION IN DICKERSON CASE

Defendant Sent To Russell County To Stand Trial First

JAIL BREAKING CINCH PRISONER DECLARES

Series of Crimes Are Charged To Suspect Arrested In Birmingham

(International News Service)

BIRMINGHAM, March 28. — The question of which county jail will have first jurisdiction over Roy Dickerson, alleged bank robber and jewelry thief arrested here Sunday night, arose here today as further reports of his alleged activities were made public.

Although he has been taken to Russell County for immediate trial at Seale on a charge of robbing the Phoenix Girard bank, the state already is preparing to seize him following the revocation of a parole granted in 1915, which eliminated eleven months of a sentence for an attempted robbery at Montgomery.

Governor Kilby yesterday revoked the parole, automatically returning Dickerson to the status of a state convict. The Montgomery episode was the first chapter in Dickerson's alleged criminal career. Later he is said to have perpetrated the bank robbery, theft of \$20,000 worth of jewelry in New Orleans, and a store robbery in Selma where he is alleged to have escaped with \$2,000 worth of diamonds.

Arrested in Los Angeles and Hot Springs, at the request of Alabama authorities, he succeeded both times in escaping before officers arrived. He declared here, while awaiting the arrival of Russell County officials, that "jail breaking is a cinch."

DICKERSON RECORD READS LIKE A BOOK OF CRIME FICTION

(Montgomery Bureau, Albany-Decatur Daily)

MONTGOMERY, Ala., March 28. — The bonds of the law began winding tightly about Roy Dickerson, bank robber and general bad man, the moment positive information was received at the capitol Monday that he had been arrested in Birmingham late Sunday night. Before the end of the day Governor Kilby had issued an order revoking a parole issued to his October 27, 1915, which will mean his confinement in prison for eleven months on a charge of assault to rob committed in Montgomery and plans had been worked out for his trial at once in Russell county on indictments charging him with being the ring leader in the robbery of the Phoenix Girard Bank.

William F. Feagin, state warden-general, Monday afternoon announced that the man arrested in Birmingham had been identified as Dickerson. He said the circuit court of Russell county is now in session at Seale and Dickerson can be tried during the week. He also said that regardless of the outcome of the Dickerson case in Russell county, the convict would be returned to the state penitentiary immediately after the trial for the completion of his sentence.

Dickerson's record of crime reads like a story book. It was in 1914 that he, then a young boy, started his criminal career. He was arrested on a charge of assault with intent to rob a Montgomery store keeper. He

LAUNDRY WORKER RIVALS CARUSO!

Giuseppe Argentino, Brooklyn laundry worker, is said to have a tenor voice that rivals that of the late Enrico Caruso. Argentino will be making operatic history and scoring notable triumphs within a few years, declares Professor Jascha Bourg, who is guiding the destinies of the new "find." The laundry worker sings clearly in high "E." Bourg asserts, while the late Metropolitan Opera Company star was only able to reach high "C."

BORAH ATTEMPTS TO BRING PEACE IN NATION MINE ROW

WASHINGTON, March 28. — Following a series of informal conferences with representatives of the miners union, Senator Borah, of Idaho, chairman of the senate labor committee, was preparing to meet coal operators of the central competitive field in an effort to arrive at an understanding that would prevent the strike scheduled to begin on Sunday.

The United States faces a nation wide coal strike next week with approximately 70,000,000 tons of coal in reserve.

Work Of Purging Poll List Nearing Completion Today

The work of purging the poll lists of the county voters in the office of Probate Judge Troup is progressing near the completion of the task. All units of the county having been completed with the exception of Albany. When complete the list will be published. It is a great task to purge the poll list of the county as there are so many things to be considered in arriving at the conclusion whether or not certain names are eligible to go thereon. The greatest trouble perhaps is experienced in the proper placing of those who have arrived at the age of 45, when they are exempted from poll tax. It is a most difficult task in its entirety, and calls for the exercise of great care and patience.

COTTON MARKET

(International News Service)
NEW YORK, March 28. — The cotton market was quiet but steady at the opening today with first prices two to six points higher on steady cables from Liverpool, a wet weather map and prospects of continued showery conditions today and tomorrow.

PASSAGE OF BONUS BILL BY SENATE IS GENERALLY LOOKED FOR BY BOTH SIDES

Big Fight Will Come Over Provision For Raising Revenue

MEASURE TO FOLLOW THE NEW TARIFF BILL BELIEVED ACT WILL BE DEBATED IN COMMITTEE WITHIN TWO WEEKS

(International News Service)

WASHINGTON, March 28. — The senate will pass a bonus bill at this session, according to leaders on both sides. The big fight will be centered on efforts of Republicans to include a sales tax as a provision for raising funds with which to pay the bonus, which will meet with organized resistance.

Administration leaders were adverse to predicting that an effort will be made to bring about bonus legislation, but the consensus of opinion was that the measure will follow the tariff bill now before the senate finance committee.

It is likely that the bonus bill will be debated in committee hearings within two weeks. The sales tax method for raising revenue will be championed in committee by Senator Smoot, Republican of Utah and Senator Frelinghuysen, Republican of New Jersey. Senator Simmons, of North Carolina, ranking Democratic member of the finance committee, said he favored a bonus measure and would lead the fight for raising funds from interest on the foreign debt.

Republican supporters of a bonus bill will include Senators Johnson of Calif., Spencer of Missouri, LaFollette of Wisconsin and most of the regular senators. Serious opposition on the Democratic side will come from Underwood, the minority leader, Carter Glass of Virginia and King of Utah.

10 INNING GAME RESULTS IN TIE

The Albany and Decatur high schools played ten innings yesterday afternoon to a 4-4 deadlock. It was originally planned to start a series of five games for a loving cup yesterday, but announcement was made before the contest started that it would not count in the cup race.

Decatur led up until the ninth when Albany came from behind a 4 to 1 lead, scored three times and tied the count. Up to the sixth the game was a pretty pitchers battle between Fields and Wilkinson, but Pepper relieved the former with the bases loaded and only one out, Decatur finally showing across a pair of runners.

The batteries were: Decatur—Wilkinson and Price; Albany—Fields, Pepper and Humphries.

Freak Apple Tree Bears Fruit First On North Side, Then On The South

A Freak apple tree stands in the front yard of Mrs. Callie Barcliff at Hartselle. The apple tree is an old one, and has two distinct prongs, one pointing North the other South. This season the South side of the tree is in full bloom and will bear fruit. Last season the Northside bloomed and bore fine fruit. For the past several years this has been the rule of this old tree. Just why nature has these varying moods in regard to this tree is quite a mystery.

Youth Is Slain As Sacrifice To Truth In A Georgia Court

(International News Service.)

FAYETTE, Ga., March 28. — Weymond Cofield is dead here today, a sacrifice to truth. Cofield was stabbed late yesterday in the courtroom here after he had testified that he and his uncle, Jenes Cofield, had committed several burglaries. They had each just been sentenced to serve three to five years in the penitentiary.

"I'd rather hang than stand five years in the penitentiary," shouted Jenes Cofield and leaped over a table plunged a dagger into the breast of his nephew. The courtroom was thrown into an uproar. Sheriff Gerlin felled the elder Cofield with a blow on the head and the young man was carried into another room where first aid treatment was given. He was so weak from loss of blood the physicians said he could not recover.

Jenes Cofield was returned to jail and placed under heavy guard. The younger Cofield testified he had been beaten in jail by his uncle and two other men who threatened to repeat the beating unless he swore that he alone was responsible for the robberies.

TWO ARRESTED IN GROCERY ROBBERY

Monday morning, J. D. Thomas, who operates a grocery store on Moulton street, discovered a back window had been raised in his store between the hours of closing Saturday night and Monday. His suspicions were at once aroused, and according to Mr. Thomas he planned a trap.

Monday night a watchman was placed at a convenient point of vantage where the back door and window of store could be looked after. It has been arranged with the police, who were informed of the plan, that should the circumstances warrant a gun was to be fired three times. This was done about 9 o'clock, and Officers Beasley and Sorber at once went to the scene, and took into custody J. H. French and his son, a boy about 14 years old. They were locked up in the city jail. French, it is understood was in the employ of the city, as driver of one of the city wagons. The family lived over the store occupied by J. D. Thomas.

Council Will Hold Special Session

A special session of the Albany city council will be held tonight at the city hall, at which time they will accept bids for the construction of sanitary sewerage to serve the residents between Seventh and Eighth Avenue South, and between Prospect Drive and Fifth street. The work is made possible from the fact that many new buildings have been erected at the above points in recent months.

WEATHER

For Alabama: Showers and probably thunderstorms tonight. Cooler in north portion tonight. Wednesday showers and cooler. Much cooler in north portion.

OBVIOUSLY GOOD IMPRESSION CREATED AMONG MEMBERS OF THE INSPECTION PARTY BY MAGNITUDE OF GREAT PLANT

Cheering Words Spoken By Alabama Members of Congressional Group Aid In Creation of Optimism

(International News Service)

SHEFFIELD, Ala., March 28. — Renewed hope of speedy development of the great water power project here by Henry Ford or some other agency was born today as members of the inspection committee started on their two day inspection tour of dam sites, nitrate plants and uncompleted wartime enterprises of the government.

Cheering words by Alabama members of the capital party with the obviously good impression already acquired by the lawmakers from other parts of the country created a wave of optimism among the citizens who have watched and waited for development.

The committees, while declining all formal entertainments, are being assisted in their minute inspection tour by Sheffield and Florence citizens familiar with the project and by army engineers stationed at the property.

The congressional party arrived at midnight from Jasper, near Gorgas, where the steam plant on the Warrior which is developing into the principal stumbling block in the way of Ford's success, was thoroughly inspected.

While maintaining discrete silence on material points members of the party intimated that should Ford eliminate the Gorgas plant from his bid, it would aid substantially in getting consideration of his offer. This, however, Ford has steadfastly declined to do up to this time.

Alabama power company officials have mingled with Ford advocates in efforts to help the inspection party obtain all possible information. Yesterday at Gorgas officials of the company explained all angles of the plant and the company's claim to the property.

Members of the party began early in the afternoon on a program calling for a strenuous half days work. After luncheon was served by women at the post garrison the congressional leaders of the party outlined the activity for the remainder of the day, which includes a thorough investigation of the scientific possibilities of the nitrate plants.

The visitors were impressed with the huge plant, according to frequent exclamations of surprise at the magnitude of the project. During the morning, after an informal breakfast had been served at the Sheffield Rotary Club, the visitors were shown completely over the two plants, the different systems of making air nitrates was explained by ordnance department officers and an immense salvage pile, worth approximately \$8,000,000 as junk.

Model cities, ready for occupancy by an army of toilers adjoining the works, were shown the party. Members are obviously interested making continual inquiries into every phase of the development and making careful memoranda of ever detail as explained by war department authorities stationed on the reservation.

The inspection tour will be completed tomorrow, it is expected. Big crowds from Florence, Sheffield, Tusculumbia and adjoining territory are here joining in the jollification caused by the coming of the party. On every hand it is felt that after the committee has seen the immensity of the project, speedy decision will result on the offers now pending in congress for its lease.

All outside persons are being kept away from the committee members, only war department officials being employed as guides and informants. The busy day for the committee was scheduled to end at 5 o'clock with a

barbecue at the home of E. A. O'Neal. Scores of prominent Alabamians, including judges, legislators and financiers, are on the sidelines watching the committee in whose hands rests the future of the river development.

MAKE FORD PRESIDENT

SHEFFIELD, March 28. — "If you don't give Muscle Shoals to Henry Ford, he will be the next president of the United States in spite of hell, high water and the Alabama power company," was the message former Lieutenant Governor Howard, of Nebraska, told the Florence chamber of commerce to deliver to the senate and house committee now here inspecting the project. The statement came during a speech in which the former Nebraska official bitterly attacked the "water power trust of the United States" for its activity in Alabama and Nebraska.

NEGRO'S URGE FORD BID

SHEFFIELD, Ala., March 28. — An impressively worded memorial, urging with characteristic racial earnestness the acceptance of "Mister Henry Ford's" offer for Muscle Shoals was presented to the senate and house committee by a delegation of negro ministers here this morning. Rev. L. J. Green, pastor of various negro congregations, presented the memorial. Senator Norris spoke in acknowledgement.

AMERICAN WOMAN SLAIN BY KOREANS WHO RUN AMUCK

(International News Service)

SHANGHAI, China, March 28. — An American woman named Snyder was killed when the Koreans ran amuck and fired on a crowd of tourists arriving on the American shipping board liner Pine Tree State, following an unsuccessful attempt to assassinate Baron Tanaka.

Eight persons in the crowd were wounded by bullets from the guns of the two men. Baron Tanaka, minister of war of Japan, was enroute to Japan from Manila, where he had visited Governor General Leonard Wood, the visit being a return courtesy for the recent visit of General Wood to Japan.

Armed with knives, guns and bombs the two Koreans were lying in wait on the wharf when the line, tied up. Their attempt upon the life of Baron Tanaka proved unsuccessful, he escaping unhurt.

The two men then ran amuck on the crowded steamer wharf, firing wildly into the crowd. Eight persons fell before their bullets, one of them was Mrs. Snyder, she dying soon afterward. She was on a world tour, being a member of a party of an international touring agency.

OFFICER IMPROVES

Police Officer Newt Thompson, who suffered a stroke of paralysis recently is able to be up and about again after being confined to his room for several days.

Should his improvement be as rapid as during the last few days he will be able to resume his duties on the force again soon.

WE FAVOR ACCEPTANCE OF HENRY FORD'S BID FOR MUSCLE SHOALS.

WILL CONGRESS SAY "THE PUBLIC BE DAMNED"?

The final question Congress will have to ask and answer as regards the Ford bid is: Shall the public be damned? Any who have read the numerous statements of the case in the Muscle Shoals controversy—especially the one from the Philadelphia Public Ledger, appearing in The Daily Sunday—must agree that Congress must either defy public sentiment, or heed the voices of their masters—the people. Those who wish to block the Ford bid now are the same in character who in all ages have put self seeking above the common good. They are the same people who have opposed progressive means in all ages. No doubt many who made an easy and comfortable livelihood as scribes opposed the printing press. It is a historic fact that the hand weavers of England raised a great disturbance when the power loom began to interfere with their way of making a living. Later the whole laboring world for a time, openly opposed the labor saving machinery now taken and used as a matter of course. Just as the weavers of Lancashire opposed the power loom, so are those who make fertilizer by their own methods opposing the Ford plans to make fertilizer from the air. Those who see a shrinkage in their coal values, when more 'white coal' is developed by Ford, oppose his bid. Those who have a corner on aluminum, wish to keep it at all costs. Some who see transportation rates lowered by Ford opening the Tennessee river to the Atlantic Ocean are against his ambitious schemes. Those who do not wish to go to the trouble to equip their work shops like Ford, and hope to keep on the same old way, oppose his efficient factory management.

Such are, of course, not prepared to compete with Ford in the markets without paying lower rates for labor—and will oppose his higher wage plans to the bitter end, regardless of the humanitarian benefits that would come if they would let Ford lead the way and they follow.

Can it be possible that the American people and their Congress, have so far forgotten their contempt for the profiteers, that they will omit an opportunity to strike them a blow, by putting Ford at the Shoals? Certainly the American people wish to what the profiteer every time it is possible to do so—will their Congress help them in that good work, or will the federal solons say with a certain departed Vanderbilt 'the public be damned'?

THE ROAD BUILDING PROGRAM.

The letting of the contract for public highways in the county of approximately 65 miles of macadam roads marks a most important epoch in the road building program of the county. In the specifications as published by the board of revenue, calls for clearing and grubbing 18 acres of land. The earth excavation calls for handling 196,920 cubic yards of earth, and 55,960 pounds of reinforcing steel. In the specifications is embraced the spreading of 71,020 cubic yards of crushed limestone, 1,748 cubic yards of class A and B concrete is also to be used.

On the 12th of April the board of revenue will open bids for the work which will be the initial movement in the building of splendid highways over the county, adding to and connecting up those already built. When these are completed the county will have a splendid system of macadam roads second to none of her sister counties.

These stretches of road will penetrate in two sections of the county which have not been blessed with macadam roads heretofore, the past programs of building being from the railroad centers outward. With this extra mileage completed practically every section of the county will be in easy access of a road which will be open to travel all the year round. It will add to the pleasures which are already accruing to a large majority of the citizenship of the county as well as being of direct benefit to the remote sections.

ALABAMA NEEDS AUBURN.

Alabama's greatest need today is trained men who can and will develop our resources. No state in the Union is blessed with a greater wealth of minerals than Alabama and in no section of the country can a greater variety of crops be produced than in this state. But, in order to realize to the

fullest extent the opportunities which are here, we must have trained men.

Auburn is Alabama's school which trains men to work. Whether it be in industrial development, or in the improvement of agricultural methods and conditions, it is the Auburn trained man upon whom we must very largely rely. With present conditions, it is impossible for the man to farm profitably in the slipshod and haphazard method which sufficed a decade ago. Where a trained man makes a splendid success and becomes prosperous on an Alabama farm, an untrained man lives in want and poverty without hope of the future.

If Alabama is to progress industrially and agriculturally, it is essential that Auburn be given the facilities with which to train the young men and young women of Alabama. Auburn produces the producers of wealth for Alabama and any curtailment of her activities and any lessening of her facilities will be a serious blow to the entire state.

We believe that the people of Alabama will back up the Auburn Alumni in their commendable effort to raise one million dollars to provide necessary buildings and equipment and that the legislature will match that sum with another million so that the institution may be prepared to meet the needs of the young men and women of the state and to supply the demands which Alabama is making for trained men and women to build up the state.

THE FORD MASS MEETING.

It did one's eyes good to see the type of people who turned out to the Ford mass meeting Thursday night at the tabernacle. There must have been fully 4,000 of them, maybe more. There were many women there, with children tugging at their skirts. In other words, the people came forth, to hear about Henry Ford, and to tell the world that they wanted his offer accepted.

This is the remarkable thing about the Ford offer. The people are really heart and soul in it. They believe in the purpose, the bigness of his heart. One who attended the meeting cannot fail being impressed with the sincere and deep-felt hope on the part of the mass of the people that Ford wins his bid.

It is not an issue agitated by the intellectuals, the "upper crust." It is a proposition which involves the betterment of our entire section and of one great class of producers the nation over—the farmers. And the fine thing about it is the interest they are displaying, the hopes they are uttering.

Perhaps the fundamental difference between American and the nations on the continents of Europe is the idealism of our people. It may be concealed or buried, for some years, but whenever an issue is presented which has right and wrong involved in it, the people always eventually respond with a pronouncement for the right. The late Lord Bryce remarked that this was the biggest factor in our success, and the one reason why the older more cynical, saddened Europeans had found it hard to understand us.

It is this same feeling, this element of right and wrong of the development of an ideal into an actuality, which inspires the masses who hope for Ford's offer to be taken. They feel that he is one of us; that his interests are not against the popular interests, as are those of so many of the rich men, but for them. The New York World once called Ford a "scab plutocrat." And the people like such a "scab."

There is no easy road to accomplishment. Ideals are given to men with ideas, who then translate the ideas into facts. Ford is one of such men. We of the South have had the ideals of development of our incalculable resources. Ford, we believe can translate these ideals into facts.—Chatanooga News.

It augurs well, the manner in which the state highway commission is taking hold of and pushing the state road construction. Several contracts were let by the department at Montgomery Thursday, when bids were received and contracts let. It is an epoch period for the state. It means much. It is the beginning of an era when the mud tax which has shackled the people of this state from time immemorial, will be cut loose from, and means the dawning of a brighter better day from the Tennessee river to the Gulf of Mexico.

We are just beginning to tackle the big things of state, tackle them with the honest intention of mastering and handling them for the best interests of all the people of the state. Let there be no pulling asunder. No see-sawing, or throwing of impediments in the way of the march of onward progress. As compared with our sister states we are a way behind the times in matters of public usefulness, and we might as well face the situation as it is. We have started right. Without good and plenty of state highways there can never be a proper development of all the things which go to make a country great in the essential things. Good highways are the first step; the other things are a natural sequence.

Perhaps the baseball magnates threatened to "bench" Judge Landis for keeps, is the reason he resigned as Judge.

Records show that Bolsheviks Lenin was once a pupil of the father of General Kerensky, and that his name then was Vladimir Oulianov. Also he received a medal for excellence and good behavior. Could a change in name have wrought such a transformation in character?

THE SENATE TALKS

The senate sits on the lid of h—
Talking.
Busily occupied for a spell Talking.
Europe is shaky, credit is gone,
Famine threatening, gaunt, and wan,
But the senate noisily keeps right on
Talking.
"Peace," men cry, "It is time to quit
Talking.
There'll be h— to pay and you're
aiding it, Talking.
The world is troubled by bolsheviks,
Trade and business are in a fix,"
But the senate is dabbling in politics,
Talking.

The senate sits on the lid of h—
Talking.
Seeming to think it can do things
well Talking.
It will sit and talk and talk until
The lid blows off—as it doubtless
will—
And the senators sail through space,
Talking.

PENN'S SPELLS

Quality

CHEWING TOBACCO

Because Penn's is packed airtight in the patented new container—the quality is sealed in.

So Penn's is always fresh. Have you ever really chewed fresh tobacco?

Buy Penn's the next time. Try it. Notice the fine condition—fresh—Penn's.

The American Tobacco Co.

IT COSTS MUCH LESS TO DO IT NOW

Prices are down. Delay in painting because of price is no longer an excuse.

But regardless of price, it always costs more *not* to paint than to paint. Decay and rust never let up. And the very next rainstorm may thoroughly soak unprotected spots and start real deterioration.

Suppose that every five years you invest \$20 in good paint. That's \$4 a year. *Neglect* will cost you many times that amount some day in building materials.

And that \$20 investment in good paint will add several hundred dollars to the value of your home, besides preserving your pride in an attractive place, which in itself is worth something.

Good paint we say. Cheap paint isn't cheap—it's expensive.

Lucas Tinted Glass Paint, covering 350 to 400 square feet, two coats, costs less to start with than cheap paint which covers 200 to 250 square feet. And enduring much longer, this first cost is still further reduced.

The reason for this is that the *Lucas* materials are ground days longer, more rigid laboratory tests are made, and a larger percentage of high grade linseed oil is used—which not only gives a more beautiful gloss but causes deeper penetration and greater durability.

There's only one place in town to get this paint—at our store. We have the exclusive agency for it—and proud of it.

AUBURN NEWS

AUBURN, Ala., March 28. — A new bulletin published by the Alabama Extension Service has just come from the press and copies are being mailed out upon request.

"Vegetable Planting Table and Spray Calendar" is the title of this bulletin, which is a brief but very thorough outline of the essential facts connected with the management of successful gardens. It includes a planting table for the common Alabama vegetables, showing the planting distance, seeds required, depth of planting, and other essential information. This table contains specific information for both spring and fall vegetables, and for the purpose of making it applicable to the different sections of the state it is divided into south, middle, and North Alabama.

Along with the planting table is a spray calendar which contains specific information as to the control of the common garden insects and diseases.

The author of this bulletin is Professor C. L. Isbell, of the Horticultural department, formerly Garden Specialist for Alabama. The instructions contained in it are very valuable and practical.

MOBILE SOAKED

MOBILE, March 28.—Street car traffic was brought to a standstill and thousands of dollars damage was done to goods in storerooms here early today when a 4.5 inch rain struck the city.

CLASS SOCIAL

Mrs. Milton Harvey and Mrs. Edith McKnight entertained the Social Service Class of the Central M. E. Church Friday afternoon at the Harvey home. Bowls of jonquils and violets were used in the reception rooms. A delightful musical program was given by Mrs. Giers and Miss Mary Penick. The St. Patrick idea was carried out in several contests.

A delightful social hour was then enjoyed, when the hostess, assisted by Mrs. Edith McKnight and Mrs. Zeno Bailey served an ice course, mints and salted almonds.

GOIDELE-BARNES

Mr. and Mrs. R. T. Barnes, of Nashville, announce the approaching marriage of their daughter, Mamie Belle, to Mr. Henry O. Goidele, of Albany, the date to be announced later.

The above announcement will be read with much interest by the many friends of the groom here.

Several Twin City citizens went to Muscle Shoals today to meet the national figures who are to make a two day inspection of the project. Included in the list were, D. D. McGehee, Tom Price, Clyde Hendrix, W. H. Myers, Gus Bassett and Mr. and Mrs. W. B. Edmondson.

Miss Arva Nance, of Collinsville, Ala., is the guest of her sister, Mrs. T. L. Baker, Jr.

Mrs. T. L. Baker, is reported improving rapidly after a two weeks illness.

Mrs. Frank Lide and Mrs. Wallace Carson spent Monday in Birmingham.

Miss Pern Royer, who has been ill for several days, is reported improved.

Little Kathleen Payne, of Birmingham, is the guest of Mr. and Mrs. A. L. McCauley.

PERSONALS

Marvin Bates has accepted a position with Marshall Jordan and Keith and will work at their Decatur Office.

J. B. Cassels is in Cullman on business this week.

Capt. Joe Gibson, of Hillsboro, was in Decatur Sunday enroute to Birmingham, where, by invitation, he will join the Washington delegation there to make their proposed visit to Muscle Shoals.

Leonard James, of Atlanta, was in the Twin Cities Monday en route to his home from Hillsboro, where he was called by the death of his father.

Ernest Dodd, son of Mr. and Mrs. C. E. Dodd is seriously ill at their home on Wadsworth Street.

Mack Roberts, until recently connected with the Beason Cobb Drug Co. is studying pharmacy in Birmingham.

Eddie Smoot is ill at his home in South Albany.

Charles M. Sherrod, of Courtland, is in Decatur on business today.

J. B. Leeman, of Hartselle, is here today on business.

Chas. L. Orr, of Hartselle, was in the city today.

J. Burleson Orr, of Hartselle, was a visitor in the Twin cities today.

Bert Thomas, of Cullman, is in the city today.

R. L. Sherrill, of Hartselle, is here today on business.

NEIL O'BRIEN'S MINSTRELS

On tomorrow night at the Princess Theater goes will be offered the very latest thing in modern minstrelsy when Oscar F. Hodge will present the celebrated Neil O'Brien Super-Minstrels who are now on their tenth annual tour of the principal cities of the United States. This organization stands at the very head of the list of purveyors of this form of popular entertainment, comprising as it does the highest class artists obtainable; singers, dancers, specialty performers and comedians in a three part program arranged and personally directed by Mr. Neil O'Brien, who occupies the eminent position of being the representative producer of minstrelsy of the present day.

A most unique and novel first-part with a setting different from anything hitherto seen in minstrelsy will start the program, followed by "The Sleepless Sleeper," or the "Tipless Porter,"—written by Neil O'Brien;

THE BAKING POWDER QUESTION SOLVED

Most housewives proclaim that the baking powder question was solved for them the moment they used the first spoonful of Calumet. After that no doubt remained—no hoping—no searching for a perfect leavener—no wondering if bakings would "turn out all right."

CALUMET
BAKING POWDER

has solved the question because in all these thirty years it has never failed to produce wholesome and appetizing foods at an economical cost. It is as pure and sure as any baking powder ever made.

Calumet is more economical than other brands selling for less because its quality is the highest—no losses from spoiled bakings.

Use Calumet once—that's enough to prove to you that it's "best by test."

A pound can of Calumet contains full 12 oz. cans instead of 10 oz. cans. Be sure you get a pound when you want it.

"The Sound Cure," by Pete Detzel and Joe Carroll; "The Highbrow Masquerade," Bell and Arliss in songs and a closing comedy by the entire company, entitled, "Wood Alcohol or White Lightning."

Among the clever comedians in the roster of the company will be found Jack "Smoke" Gray, Jack Weir, Pete Detzel and Joe Carroll, Bell and Arliss, Gene Cobb, Frank "Cracker" Quinn, Fred Miller, Claude Root, and "Speed" McCarty, Henry Maher, J. Lester Habercorn, Tom Kane, Wally B. Mersereau, George Shone, Dan Marshall, Charles R. Wright, Tom Wiggins, Ed Larson, Andrew White, Jimmy Johnson, Nyle Vern, William Richards and David D. Morris.

Unshaken Testimony

Time is the test of truth. And Doan's Kidney Pills have stood the test in Decatur. No Decatur resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

Mrs. J. L. Rose, 425 E. Pond St., Decatur, says: "After I did a hard day's work, especially washing, my back hurt severely across my kidneys. Mornings I was so stiff and sore, it took a lot of effort to get out of bed. I had seen Doan's Kidney Pills highly recommended and decided to try them. After using Doan's, I had no more of the trouble and I am glad to recommend this remedy to anyone suffering from kidney trouble." (Statement given March 10, 1914.)

On February 7, 1922, Mrs. Rose said: "I have used Doan's for attacks of kidney trouble since recommending them and they have always been reliable. Occasional use of Doan's keeps my kidneys in the best condition and I am glad to confirm my former statement."

C. L. PRICE.
(Paid political advertising authorized by C. L. Price.)

Heralds of Liberty Battle Is Opened
(Montgomery Bureau, Albany-Decatur Daily)

MONTGOMERY, Ala., March 28.—Information reached Montgomery Alabama Monday that former officials and directors of the Heralds of Liberty, a national fraternal organization which has headquarters at Huntsville in an effort to oust Robert P. Davison, former county insurance commissioner of Alabama, and Frank P. Samford of Montgomery, who had been placed in charge of the organization's affairs.

Details of the legal battle were not given and could not be obtained at the capital because of the absence of A. W. Briscoe, state insurance commissioner, who has gone to Huntsville in the case. Mr. Davison was made chief officer of the society and Mr. Samford secretary and treasurer several months ago after investigations had been made by the state insurance department and others.

COX WILL HELP IN AUBURN CAMPAIGN
BIRMINGHAM, March 28.—James M. Cox, who was the Democratic nominee for President of the United States in the last national election, will be in Birmingham on Thursday night, March 30th, and will be the principal speaker at the Auburn Semi-Centennial dinner at the hotel Tutwiler ballroom.

It is expected that hundreds of the leading citizens of Alabama will be on hand to greet the distinguished visitor and to hear his message in behalf of the Campaign to raise one million dollars for better equipment and facilities for the Alabama Polytechnic Institute at Auburn.

COX WILL HELP IN AUBURN CAMPAIGN

Greater Birmingham's Campaign organization will begin the work of solicitation on the day following Governor Cox's appearance here, and it is expected to raise the city's quota within a very few days.

In the meantime, the work of intensive preparation continues throughout the state, and many county chairmen have sent in messages of thanks for the postponement of the time of active solicitation in their counties to the week beginning Monday April 10, thus giving them more time to acquaint the people with the needs of Auburn and the purpose of the campaign.

Charles F. DeBardeleben, General Chairman, points out there is every reason to believe that if this one million dollars is raised, of which he is fully confident, the legislature of Alabama will match this with an appropriation of another million dollars, and thus the future of Auburn's facilities will be assured for many years to come.

Henry T. Bartlett, of Birmingham, Vice President of the American Trust & Savings Bank, who is State Treasurer of this Campaign, reports quite a number of advance subscriptions having been received from various parts of the state and country and more coming in daily, and all of the executive officers declare they are confident of success.

Dickerson Record Reads Like a Book
(Continued From Page 1.)

was convicted and given two years, beginning his sentence immediately. On the representation that the short sentence had convinced him of the error of his way and that he would lead a correct life in the future, Governor Charles Henderson issued a parole October 27, 1915, which relieved him of about eleven months of the sentence.

The next heard of Dickerson he was serving a term on a chain gang in Georgia. Various other reports reached Montgomery that he was wanted in other states. Then the Phoenix-Girard Bank at Girard was held up and robbed in broad daylight. Several persons were arrested on charge of being implicated and a majority were convicted or pleaded guilty.

Dickerson and his wife were taken in an apartment house in Los Angeles, Calif. Dickerson escaped from the Los Angeles prison and has been since been at large. His wife was returned to Alabama, convicted of complicity in the robbery and given a prison term which she is now serving at Speigner.

Many reports have been started that Dickerson had attempted to communicate with his wife and to provide a means for her escape. The woman has been one of the best guarded of all state convicts because officials of the convict department believed an effort would be made to obtain her liberty illegally. Mrs. Dickerson applied for a parole last year but her attorney did not press it when it was found she was wanted at Selma on a charge of being implicated in a jewelry robbery.

Dickerson's story after his arrest in Birmingham Sunday night that he had been to Speigner two times to see his wife caused Hamp Draper, warden, today to declare that Dickerson had never visited his wife at Speigner. Various reports reached the warden that Dickerson was attempting to communicate with his wife and they caused the warden to station a stronger guard about her and to issue an order that no person was to be permitted to see her. Even her attorney was denied the right to confer with him.

Deputies of Montgomery were informed that Dickerson was in Montgomery sometime Sunday and that he left the city during the day for Speigner. It was presumed, if this story is correct, that Dickerson went to Speigner in an effort to see his wife and then caught a train for Birmingham where he was arrested.

It was presumed, if this story is correct, that Dickerson went to Speigner in an effort to see his wife and then caught a train for Birmingham where he was arrested.

Rickard Case To The Jury Tuesday
(International News Service.)

NEW YORK, March 28.—The case of George L. "Tex" Rickard, internationally known sports promoter, charged with attacking 15 year old Sarah Schoenfeld will go to the jury late today. When court adjourned until 1 o'clock this afternoon only the arguments of opposing counsel remained to be made. Belief was prevalent the jury will return a quick verdict. It was understood members of the jury requested the case be completed today if possible.

Y PLANNING FOR LARGE RADIO SET
A radio receiving station has been installed by secretary of the Y. M. C. A., primarily as a test to prove the feasibility of it being able to receive. A high class instrument will be purchased. This test is made possible by the courtesy of J. O. Richardson loaning the apparatus necessary for the test.

The test is proving a success and the secretary is recommending to the board of management the installation of suitable apparatus which will enable the management to invite the membership, their families and friends to the building to hear concerts and lectures, and on Sunday afternoons a sermon by prominent clergy of the East which is broadcasted on Sunday afternoon at 2 o'clock. This service is broadcasted by the Westinghouse people in East Pittsburgh, Pa., also from the broadcasting stations in Detroit, Mich., Jersey City, N. J., and Denver, Col.

During the past few evenings the apparatus has been tuned with the above stations with a measure of success. It is the purpose of the management as soon as a suitable horn can be secured and installed to invite the public. When the installation is complete it is hoped to hear the radio messages in all parts of the large lobby at the Y.

Y PLANNING FOR LARGE RADIO SET

Negotiations are now under way with the manufacturers for the purchase of suitable instruments. Delay is occasioned by the fact that all manufacturers are oversold.

Owing to the superabundance of electricity present in the southern

climate, it is impossible to tune in on rainy or cloudy nights. The manufacturers are working on this feature with a view of eliminating it.

The feature as proposed by Secretary Nollau will be educational and instructive as well.

IMPORTANT TO ALL WOMEN READERS OF THIS PAPER
Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be despondent; makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at drug stores.—Advertisement.
